| 450+ FULVOUS WHISTLING DUCKS 14 August at Crooked Tree near the mouth of Black Creek. Early for September.  |        |        |        |        |        |        |        |        |        |        |
| 7 GLOSSY IBIS 14 and 15 August working the edges of Crooked Tree south of the bypass.   |        |        |        |        |        |        |        |        |        |        |
| 1 CRANE HAWK 15 August at Crooked Tree on Black Creek   |        |        |        |        |        |        |        |        |        |        |
| 3 OSPREY (1migrant (carolinensis sub) at man-made lake in Blue Creek (OW), 2 at Crooked Tree)   |        |        |        |        |        |        |        |        |        |        |
| 1 OSPREY of the resident ridwayi sub-species at Crooked Tree (photos taken), we had a ridwayi last year in the same location.   |        |        |        |        |        |        |        |        |        |        |
| A flock of 90+ Swallow-tailed Kites at the Guacamallo Bridge! Impressive!   |        |        |        |        |        |        |        |        |        |        |
| 1 adult CRESTED CARACARA 16 August seen from the Western Highway on the north side of Running W.  |        |        |        |        |        |        |        |        |        |        |
| 1 LAUGHING GULL 15 August at Crooked Tree, adult non-breeding   |        |        |        |        |        |        |        |        |        |        |
| 1 Gull-billed Tern at Crooked Tree on 14 and 15 August  |        |        |        |        |        |        |        |        |        |        |
| 9 BLACK TERNS (6 at the man-made lake in Blue Creek and 3 at Crooked Tree)  |        |        |        |        |        |        |        |        |        |        |
| 1 COMMON GROUND-DOVE on the road out to the Western Lagoon in Crooked Tree. Good looks of female with scaly breast  |        |        |        |        |        |        |        |        |        |        |
| 23 BLACK SWIFTS on 18 August at the Guacamallo Bridge moving up river. Seen well as they were flying low just over our heads, 30 meters from the group. Identified and distinguished from Vaux's and White-collared by size and jet black appearance. Bigger than a Vaux's and smaller than a white-collared, but the jet black appearance was no question Black. Did not observe tail notch because they were moving too fast. |        |        |        |        |        |        |        |        |        |        |
| 1 WHITE-WINGED BECARD on 17 August at Green Hills Butterfly Ranch   |        |        |        |        |        |        |        |        |        |        |
| 5000+ PURPLE MARTINS moving through over Biltmore Plaza Hotel on August 10 at dusk. Not rare, but impressive numbers!   |        |        |        |        |        |        |        |        |        |        |
